Acer ColorBoost II+

Acer ColorBoost II+ improves the natural color temperature, achieves optimal color balance and enhances color brightness according to content.

Full HD

1080p is the perfect fit for widescreen movies created in HDTV and Blu-ray Disc™ formats. Experience true cinematic experience with every single detail preserved with true-to-master precision.

Acer ColorSafe II

Acer projectors featuring ColorSafe are virtually immune to color decay, such as the yellow or green tint on images displayed by some projectors that have been used for extended periods of time. Acer projectors take advantage of DLP® technology to guarantee picture integrity despite prolonged use. Extended lifespan and consistent image quality lower total cost of ownership and translate to big savings.

Acer ExtremeEco

Acer EcoProjection with ExtremeEco is a complete environment-friendly power management solution that reduces standby power consumption by up to 70% and extends lamp life to up to 6000 hours. Also featured in the Acer EcoProjection suite is Acer ePower Management for customized power-saving configurations.

About Acer
